

## REDESIGN OF THE WHITE TONE OF THE PRODUCTS EUTRAC® & S-TRACK 3-PHASE 240V TRACK

Dear customer,

we would like to inform you about two changes in our product range. First of all, please note that our premium partner EUTRAC Stromschienen GmbH is changing its white tone for the EUTRAC® 3-phase 240V track system to white tone RAL 9016 (Traffic White). Secondly, the S-TRACK track system is also being changed to white tone RAL 9016 accordingly. This is a shade of white that corresponds to the most popular tones for sockets, light switches and window colours. RAL 9016 has a pleasantly cool effect, and goes extremely well with many styles of furnishing.

### EUTRAC® (3-phase 240V track) and accessories

- The change of white tone from RAL 9010 to RAL 9016 (Traffic White) will be taking place on 1<sup>st</sup> April 2018.
- Orders from **1<sup>st</sup> April 2018** will be supplied exclusively in white tone RAL 9016.
- A residual supply (RAL 9010) will remain available so that replacement or additional orders for existing systems can be fulfilled. Subject to goods being unsold.

### S-TRACK (3-phase 240V track) and accessories

- The change of white tone from RAL 9010 to RAL 9016 (Traffic White) will be taking place on 1<sup>st</sup> October 2018.
- Orders from **1<sup>st</sup> October 2018** will be supplied exclusively in white tone RAL 9016.
- A residual supply (RAL 9010) will remain available so that replacement or additional orders for existing systems can be fulfilled. Subject to goods being unsold.

Of course, we are available to answer questions on telephone no.: 02451-48-33333.  
Thanks for your attention!
